GENERAL PAIN DISABILITY INDEX QUESTIONNAIRE

The rating scales below are designed to measure the degree to which several aspects of your life are presently disrupted by chronic pain. In other words, we would like to know how your pain is preventing you from doing what you would normally do or from doing it as well as you normally would. Respond to each category by indicating the *overall* impact of pain in your life, not just when the pain is at its worst.

For each of the six categories of daily living listed, PLEASE CIRCLE THE NUMBER WHICH BEST DESCRIBES YOUR TYPICAL LEVEL OF ACTIVITIES. A score of 0 means no disability at all and a score of 10 signifies that all of the activities in which you would normally be involved have been totally disrupted or prevented by you pain.
